A Patient Story:

A patient did not have private drug coverage. They would have had to pay \$9,488 out-of-pocket for their medication. We helped the patient get more drug coverage through a Patient Support Program.

We have a regular supply of cancer medications

Unlike many community pharmacies, you do not have to wait for us to order your cancer medications. This means your treatment will not be delayed.

Our pharmacists are experts on cancer medications

Do I have to use the Pharmacentres?

You do not have to use the Pharmacentre.

We can send your prescription to a pharmacy of your choice.

Your community pharmacist is your best resource for your daily medication needs, but most community pharmacies do not routinely stock cancer medications.

How will the Pharmacentre get my medication history?

Before you start treatment, you will talk to a Cancer Centre pharmacist. If you choose to use the Pharmacentre, and make us part of your cancer care, we can:

- Get a list of your medications from the Cancer Centre
- With your permission, we can contact any other pharmacy you use

How can I get my cancer medications from the Pharmacentres?

Your health care team will fax your prescription to the Pharmacentre at Credit Valley Hospital or Queensway Health Centre.

Please call the Pharmacentre to:

1. Tell them about any drug coverage you have
2. Ask about curbside pick-up or **free** home delivery
