

Redevelopment Project at Credit Valley Hospital: Phase 3 Highlights

The completion of the Credit Valley Hospital Phase 3 Redevelopment Project marks the end of a 20 year expansion plan. The project was made possible as a result of \$117.6 million from the Government of Ontario, and over \$24.3 million in donations from over 8,000 generous community donors.

Today's event marks the official completion of a 20 year expansion plan that included: the Carlo Fidani Regional Cancer Centre completed in 2005 (Phase 1), the Regional Women's and Children's Health Centre completed in 2011 (Phase 2), and now Phase 3 which focused on the emergency department, diagnostic imaging, critical care, and surgical spaces.

Project Quick Facts

- 187,000 square feet of existing space was renovated, and 20,000 square feet of new space was added to better accommodate our growing community
- Redeveloped areas include the emergency department, diagnostic imaging, critical care and surgical spaces
- All redeveloped areas feature enhanced waiting rooms to better support privacy and the physical and mental wellbeing of our patients. Some areas also feature specific spaces for children and seniors
- New state-of-the art Diagnostic Imaging equipment, to efficient and accurate results for patients
- During construction approximately 70 workers worked on the project each day. As a result of this expansion approximately 60 new jobs were created at THP

Emergency Department Features

- 30,000+ square feet of renovated and new modernized space
- More private triage area upon arrival
- 22 private patient treatment areas for assessment and treatment
- Increased privacy in all areas of the Emergency Department
- Child and senior friendly care zones
- Mental health area with appropriate privacy and security
- Reclining chairs in waiting areas for patients
- A comfort station to warm up food and drinks
- Ear, nose and throat area with an electronic eye testing system
- Large covered ambulance garage with space for 6 ambulances
- Dedicated paramedic triage area
- Acute and resuscitation area

Diagnostic Imaging Features

- Expanded Interventional Radiology, Nuclear Medicine and Ultrasound Suites with modernized equipment
- Michèle S. Darling Women's Imaging & Assessment Centre for breast cancer patients in our community

- X-Ray suite with enhanced technology
- Computed Tomography (CT) suite with two new high accuracy CT scanners
- 10 private ultrasound test rooms
- 10 new recovery beds
- Redesigned patient registration and waiting areas create better sight lines for staff

Critical & Intensive Care Features

- Relocated 5 Coronary Care Unit (CCU) beds into a new unit, with modern technology and new comforts for patients and families
- 24 bed Intensive Care Unit (ICU), which includes 5 new beds, with improved privacy and natural light
- 6 negative pressure isolation rooms in the ICU, previously 2, with automatic doors and a wave enter to prevent the spread of bacteria
- Art installations above each bed to support the overall healing and wellness of patients

Surgical Program Redevelopment

- 12 new and renovated operating suites
- 20 new Post-Anaesthetic Care Unit (PACU) for recovery and 16 day surgery spaces
- New state of the art equipment including a new medical device for robotics assisted surgery
- Renovated spaces to support patient privacy and staff efficiency
- Improved space for medical residents to observe and learn
