Trillium Health Partners Temporarily Reduces Essential Visitors Due to COVID-19

In response to increasing COVID-19 cases within our community, Trillium Health Partners (THP) is taking the difficult step of reducing the number of visitors in the hospital to protect patients, staff and the community.

Effective Thursday, November 19th at 10 p.m., THP is permitting 1 essential visitor per patient during their hospital stay, with exceptions granted for specific patient population groups. For more information about these exceptions, please visit [thp.ca's "Visiting THP & Connecting With Patients" page](#).

We understand how important family and friends are to patient wellness and we thank you for your patience and understanding during this difficult time.

For the most up-to-date information, patients and the community are encouraged to visit [trilliumhealthpartners.ca](#) and follow THP on social media.
