

**FOR IMMEDIATE RELEASE**

**Trillium Health Partners moves closer to building  
The New Peter Gilgan Mississauga Hospital**

**March 10, 2023 (MISSISSAUGA, ON)** – Today, Infrastructure Ontario (IO) and Trillium Health Partners (THP) announced the start of the development phase for The Peter Gilgan Mississauga Hospital. IO and THP signed a Development Phase Agreement (DPA) with ED+PCL Healthcare Partners, the Development Partner selected to further develop the project requirements and design, schedule, pricing, and risk management. The development phase follows an open, fair, and competitive Request for Proposal (RFP) process that began in April 2022 and was awarded to ED+PCL Healthcare Partners after extensive evaluation.

The Peter Gilgan Mississauga Hospital project is being delivered using a progressive public-private partnership (P3) approach, which will see ED+PCL Healthcare Partners work collaboratively with IO and THP under the DPA, as well as with the Ministry of Health. Once the Development Phase is complete, in approximately two years, it is expected that ED+PCL Healthcare Partners will enter into a fixed-price Project Agreement with THP to finalize design, build, finance and maintain the project, and proceed into the implementation phase for construction of the project.

Over the next 20 years, THP will experience more demand for its services than any other hospital in Ontario. *Trillium HealthWorks*, announced in December 2021, is the largest health care infrastructure renewal in Canadian history and will help meet the health care needs of the growing communities of Peel region and West Toronto areas. *Trillium HealthWorks* includes building The Peter Gilgan Mississauga Hospital, and expanding the future home of The Gilgan Family Queensway Health Centre. THP's plan to create a new kind of health care for a healthier community means advancing health across the hospital, the system and the community.

The start of the Development Phase marks the next major milestone in the process towards building The Peter Gilgan Mississauga Hospital. The new hospital will include:

- New and expanded Emergency Department (ED) – creating one of the largest EDs in the province
- Surgical platform that provides flexibility to adapt to changing patient needs and new technologies, including an increase in the number of surgical operating rooms with specialized equipment and advanced imaging systems
- New advanced diagnostic imaging facilities
- New pharmacy and clinical laboratory

Early works on the project, including the construction of the new parking garage, began in summer 2021. Hospital construction is currently estimated to begin in 2025, subject to the builder's construction schedule.

**Quotes**

“The Peter Gilgan Mississauga Hospital project will help ensure patients in Peel Region can connect to care, closer to home. Once completed, this will be the largest hospital in the country, and the Ontario government is proud to support this historic project which will help expand emergency care, advanced diagnostic facilities, and more. I am very pleased to see progress on this project which will serve the region for generations to come.”

- *Minister Sylvia Jones, Deputy Premier and Minister of Health*

“Communities in Peel Region and across Toronto are depending on us to deliver quality health care right here in Mississauga. I am pleased to see the Peter Gilgan Mississauga Hospital project move forward and begin the development phase. The project will be delivered using the innovative P3 model- which fosters collaboration between the builder and the province. This landmark project will deliver a new and expanded emergency department, clinical lab, advanced diagnostic facilities, and so much more. The Peter Gilgan

Mississauga Hospital project is one of the ways our government is delivering on our promise to build Ontario and modernize our health care system for decades to come.”

- *The Honourable Kinga Surma, Ontario's Minister of Infrastructure*

“IO is pleased to be working with Trillium Health Partners and ED+PCL Healthcare Partners to deliver this project using a progressive P3 approach. This approach represents the continued evolution of the P3 model and will enable more opportunities to exchange ideas and share input during the project's design phase, which will help to address the inherent complexities of delivering a healthcare facility of this size and scope. By working collaboratively to deliver this vital healthcare infrastructure, we will achieve the best outcome for the hospital and the greatest value for Ontario's taxpayers.”

- *Michael Lindsay, CEO and President, Infrastructure Ontario*

“The *Trillium HealthWorks* redevelopment projects are vital to ensuring we can deliver the health care this community needs and deserves for years to come. The Development Phase Agreement marks a major milestone in this journey. In close collaboration with ED+PCL Healthcare Partners and IO, THP will work to create an improved, more efficient, and more equitable health infrastructure for the community we serve.”

- *Karli Farrow, President and CEO, Trillium Health Partners*

### **Trillium Health Partners**

Trillium Health Partners is one of the largest community-based hospital systems in Canada. Comprised of Credit Valley Hospital, the Mississauga Hospital and the Queensway Health Centre, THP serves the growing and diverse populations of Mississauga, West Toronto and surrounding communities. THP is a teaching hospital affiliated with the University of Toronto and is an associate member of the Toronto Academic Health Science Network.
