

# Women's & Children's Inpatient Care Moving to One Location

Beginning October 8, 2025, Trillium Health Partners will provide all inpatient hospital care for women's health, birthing patients, and children at Credit Valley Hospital. This change will continue until construction is complete on the future Shah Family Hospital for Women and Children — the first hospital of its kind in Ontario.

---

## Are you having a baby this Fall?

If you're planning to give birth at Mississauga Hospital before October 8, your plans will not change. For Fall/Winter 2025 babies, please contact your primary care provider with any questions.
